

Advisory IT Professional

At EY we support you in achieving your unique potential both personally and professionally. We give you stretching and rewarding experiences that keep you motivated, working in an atmosphere of integrity and teaming with some of the world's most successful companies. And while we encourage you to take personal responsibility for your career, we support you in your professional development in every way we can. You enjoy the flexibility to devote time to what matters to you, in your business and personal lives. At EY you can be who you are and express your point of view, energy and enthusiasm, wherever you are in the world. It's how you make a difference.

Job purpose

We are currently seeking highly skilled and motivated individuals to join our Advisory practice, which is among others, a leading service provider to Banking, Insurance and other large corporate clients in a variety of industries, both locally and internationally.

As an IT Professional you will contribute to a broad range of information technology related client engagements and internal projects, in Greece and abroad. As part of the development practices you will be using industry leading frameworks & platforms and the latest technologies in the context of proven agile development frameworks.

The opportunity is now. If you are interested in being part of a dynamic team, serving clients and reaching your full potential - Ernst & Young Advisory Services is for you.

Technical skills requirements:

- Academic background, including a degree in Computer Engineering, Software Engineering, Information Technology/ Systems or other related field.
- Software development skills in some of the following:
 - JEE (Java, JSP/ servlets, JSF, JPA, Spring, JBoss/ WebSphere/ WebLogic),
 - Exposure in Microsoft .NET technologies and tools (e.g., MS Visual Studio, C# or VB.NET, ASP.NET/ MVC, Linq, ADO.NET/ Entity Framework, WCF)
 - Oracle JDeveloper, Oracle ADF, Oracle 11g, PL/SQL,
 - HTML5, CSS, XML, XSD/ XSL, JavaScript, jQuery, Ajax,
 - Web services (SOAP, WSDL, WS-*, JAX-WS, JAXB)
- Exposure in various engineering activities including planning, analysis, design, implementation, testing and maintenance.
- Strong written and verbal communication and technical writing skills in both Greek and English. Knowledge of additional languages will be considered an asset.
- Ability to manage client relationships with senior executive or management team, ensuring feedback is obtained and reacted to.
- Ensure that risk management procedures and quality standards are observed throughout assignment delivery.
- Remain current on new developments in advisory services capabilities and industry knowledge.
- Willingness and ability to travel and work abroad for international projects.
- Completed military obligations (where applicable).

Any of the following will also be considered an asset:

- MS SQL Server, IBM DB2, MySQL and NoSQL databases
- ETL tools, SOA and ESB platforms.
- IT related professional qualifications.
- No previous working experience is required, although a relevant working experience of up to 5 years will be considered an asset.
